

BHARATH M R

Software Test Engineer

📍 Bangalore, India 📞 9148750986 ✉ bharath36527@gmail.com 🔗 [linkedin.com/in/bharath2002](https://www.linkedin.com/in/bharath2002)

Highly skilled Test Engineer with 2 years of experience in manual and automated testing (Selenium, FireFlink). Proficient in writing automated test scripts, test case design, defect tracking (JIRA, Bugzilla), and Agile practices. Passionate about software reliability and product quality.

Education

B.E in Computer Science Engineering

BNM Institute of Technology | 2020–2023 | CGPA: 7.6

Diploma in Computer Science

VETBVL Polytechnic | 2017–2020 | 82.25%

Experience

Software Test Engineer | LGSI, Bangalore | Feb 2024 – Present

As a Test Engineer, I am responsible for ensuring the quality and functionality of a software as:

- Performed manual and automated testing to ensure software reliability.
- Logged and tracked defects using JIRA and Bugzilla.
- Written and maintained automated test scripts and test cases for functional and integration testing.
- Collaborated with developers in Agile sprint cycles, daily stand-ups, and retrospective meetings.

Skills

Java · SQL · HTML · Selenium · TestNG · Automation Scripting · Data Driven Testing · Test Case Writing · JIRA · BDD Framework · Jenkins · CI/CD Pipeline

Soft Skills

Adaptable to the changing environment · Quick Learning · Teamwork · Planning Ability · Leadership

Certifications

SDET | QSpiders – Automation Testing (Selenium), API Testing, SQL, and QA Practices

A+ & N+ | IIHT – Hardware, Networking, Troubleshooting, Security Fundamentals

Internships

Alpha Tech Academy | Hardware & Networking

Hardware and Network configurations, Networking Fundamentals and Strong foundation for Network administration.

Take It Smart | Full Stack Web Development

Built a web application using HTML, CSS, React, Python (Django), and MySQL.

Projects

Bitcoin Price Prediction – Crypto trends forecasting (Python, Flask, HTML and VS Code)

Agribot – Automated irrigation (C++, Arduino IDE and ThingSpeak)

Weather Aggregator – Weather data web app (Django, HTML, CSS and OpenWeatherMap API)

Crowd Beta Testing – Performed functional testing on web apps (Chrome, Firefox and MS-Excel)
